

## Satellite P750 Series Premium HD entertainment

The Satellite P750 caters for your every entertainment need. 2nd generation Intel® processor technology and NVIDIA® graphics provide incredible power. The 39.6cm (15.6'') TruBrite® HD display with LED backlighting and Blu-ray playback means you can enjoy movies in the stunning detail. You can even enjoy unparalleled sound courtesy of integrated Harman Kardon® speakers. Whether gaming, watching movies or just browsing the web, the Satellite P750 does it all.

**Satellite P750-114**

### PURE POWER

Raw power means this laptop can do pretty much anything you want it to. Its 2nd generation of Intel® Core™ processors run demanding programmes side-by-side without breaking sweat, and the latest NVIDIA® GeForce® graphics with Optimus™ technology make everything look amazing and lets you save battery time. Play games, enjoy movies, edit images. And with the optional Solid State Hybrid 4G drive you get the perfect blend of speed and capacity with SSD and HDD together. There are no limits.

### TOTAL ENTERTAINMENT

Enjoy pin-sharp Blu-ray® playback on the 39.6cm (15.6") TruBrite® HD display with LED backlighting. Watch HD movies, play games and back-up your favourite content to high-capacity discs with a next-generation Blu-ray Disc™ rewritable drive. The rewritable drive enables you not only to playback and record, but to rewrite on disc your own video and data over and over again. Enjoy Toshiba's unique Resolution+ technology. This software up-converts standard definition to near HD-quality and gives movies greater depth. A TV Tuner and remote control also puts the P750 at the heart of your entertainment system.

### NEW DIMENSIONS

Breathe new life into your regular DVDs and home made videos with the exclusive Toshiba Video Player. This software application converts 2D content into 3D in real-time and enables you via HDMI to thrill to a high-class entertainment experience on a large screen of an external 3D-ready TV set – perfect for enjoying with friends and family. In addition enjoy 3D Blu-ray movies and 3D DVDs on your external 3D TV via HDMI connection. So, no need to buy a Blu-ray 3D player – the Satellite P750 does it all.

### CINEMATIC SOUND

Class-leading audio technologies provide sonic performance you won't believe. With Dolby® Advanced Audio technology and integrated Harman Kardon® speakers, this machine provides audio depth beyond most laptops. The Sleep-and-Music functionality lets you listen to music from your external MP3 Player through the laptop speakers even when the laptop is switched off.

### CONNECT WITH EASE

Leading connectivity courtesy of Toshiba EasyMedia makes everything easier. USB 3.0 transfers entire media libraries to your laptop in seconds. Intel® Wireless Display sends laptop content directly to your TV. HDMI-CEC allows you to handle your home entertainment system with one single remote control. And USB Sleep-and-Charge also keeps phones, media players and tablets charged, even when the laptop is switched off.
